Operating cash flow	-3,783.00	54,519.00	58,302.00	Increased

Interpretation and limitations

This tearsheet summarizes the available project dataset and configured rule-based indicators. Confidence scores are rule scores, not probabilities. A missing finding does not by itself establish that a company has no risks. Financial values and reporting years may differ across companies. This report is analytical information, not investment advice.
